When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices, do not require to be lured back by catchpenny reductions.

TELEGRAMS
TO STANDARD.

London, 8th—The Message read this evening in the Commons congratulates the country on the elections having taken place in peace, and proposes the adjournment of the House. The Liberals are very irritated, and wish to bring about an immediate vote.

Berlin, 8th—On the Emperor's arrival from England the Minister of the Interior Von Herfurth intends to insist on the acceptance of his resignation, already presented.

St. Petersburgh, 8th—Fresh reinforcements have been sent to the provinces where cholera prevails, to suppress the frequent disorders that occur through the excitement of the people against the authorities, whom they accuse of spreading the epidemic.

In some places houses have been sacked owiug to the misery that prevails throughlwant of food.

It has been found necessary to employ troops in caring the sick, to avoid the spreading of the epidemic by leaving them to their fate, as happens in many villages.

Paris 8th—The principal nations, including the Argentine Republic, will send their squadrons to Genoa, on the visit of the King and Queen to that city.

The French squadron will also go; but Germany will not send hers, in order to give a political significance to the action of France.

The French press no longer protest against sending the squadron; and for some time past there has been a notable improvement in the relations between France and Italy, of which the moderate tone of the papers of both countries affords evidence.

England will send fifteen men-of-war to Genoa.

Genoa, 8th—Several papers here, in Milan and Rome protest against Austrias's decision to send the war-ships Custozza, Lissa and Tegetoff to Genoa, as their names wound the patriotic feelings of the Italians, and the presence of the ships at Genoa might give rise to Irredentista demonstrations.

In consequence of this protest it is thought that Austria will send other ships.

Venice, 8th—The new ironclad Marco Polo has been safely launched.

Turin, 8th—In spite of the denial of the authorities, some cases of cholera are known to have occurred at Roccaforte, Mondovi, province of Cuneo, where some alarm prevails.

Rome, 8th—The Vatican has abandoned the idea of canonizing Columbus.

(To the "Prensa".)

London, 6th—The old Eastern Question, staved off in 1885, on the verge of a war, has, within the past few days, reappeared in alarming fashion. The rout and capture of some Russsian soldiers by the Afghans justifies the formation of an army corps to operate on the Indian frontier, Russia's policy is revealed by the invasion of Palmira; and telegrams from that place say that China and Great Britain have resolved to make common cause in repelling Russia, and prevent her carrying out her long-cherished plan to reach the Indian frontier and absorb Afghanistan, to the detriment of the power and influence of England and the Celestial Empire. The Afghans will fight alike fiercely against Russia and China under English influence, not only to consolidate their independence but to extend their dominion.

A telegram from Pekin states that the Chinese Government is taking serious military precautions, and has peremptorily demanded explanations from China and Russia of the violation of its territory. The position of the Afghans has become very serious owing to the fight with Chinese troops at Samutash. It was a bloody encounter. The Celestials fought splendidly, but were finally overpowered by numbers and had to retreat in disorder.

Everything leads to the belief that the interference of England by force is inevitable, and it is doubtful if a conflict in which England, Russia and China will be involved can be prevented. The news from India to-day has caused profound alarm.

The correspondent of the *Times* at Tangiers says that Sir Ewan Smith has himself declared that the sensational news about his recent visit to Fez was grossly exaggerated, that the diplomatic relations between England and Morocco have not been interrupted, and that the negotiations for a treaty of commerce have not been abandoned.

A despatch to the *Times* from Simla says that the Russian soldiers captured by the Afghans in the fight at Hazara have been sent in irons to Cabul.

In view of the serious aspect the question has assumed the Indian Government has decided to send a small army under General Roberts to join the Emir at Jellalabad near the Indian frontier, General Roberts's mission is essentially military, not political.

There are rumours in official circles that Parliament well rise on the 20th to meet again in the middle of January.

Berlin 6th—The new Military Bill involves an increased expenditure of 60 millions of marks: but the Emperor's consent has not yet been given.

Huelva 6th—The U. S. war-ship Bennington arrived here to-day and the captain called on the Minister of Marine.

Belgrade (Servia) 6th—It is said that a new plot against the Prince of Montenegro, who is very unpopular, has been discovered.

Munich 6th—Chancellor Caprivi is thinking of heavy duties on imported tobacco, in order to foment the culture of the weed in Germany.

Teheran, 6th—The cholera is spreading rapidly in this city, and has become epidemic. Fourteen deaths on Thursday and 25 yesterday.

Paris, 6th—The police have seized several placards urging the murder of the Judges and Juvies that recently condemned the Anarchists.

London, 7th.—Messrs. Charles W. Freemantle and B. Cowie have been named Secretaries to the British Delegates to the Internationel Monetary Congress.

Gladstone will be returned without opposition in Midlothian when called to power.

Emperor William left to-day for Berlin.

New York, 7th.—The quotations on the London Stock Exchange yesterday were very heavy. Bar silver 37¾.

Berlin, 7th.—The *Neue Deutsche Zeitung* of Leipzig publishes a violent article stating that Caprivi, Von Hosnke and Von Lucamis were implicated in a plot to injure the reputation of Count Waldersee, but the Emperor found it out in time to frustrate it.

It is generally believed that Caprivi is fast losing the good opinion of the Emperor; and there is great speculation as to whether Bismarck or Waldersee will be made Chancellor.

The papers express satisfaction with the Commercial Treaty between Germany and Colombia.

The treaty with Spain will be vigorously opposed in the Reichstag, owing to the tariffs decreed with Cuba to exclude German trade.

THE ENSENADA PORT.

Rumors have been for some time current of negotiations on foot at La Plata for the sale of the Ensenada port and La Plata docks to the London bondholders. It seems that a special ugent came from London for the purpose, and the *Handels-Zeitung* has some interesting information on the subject. The docks have cost £3,000,000 sterling, and a further sum of £800.000 is required for their completion. What the Government proposes is, to hand over the docks to the holders of the Ensenada loan, provided the latter agree to take over the whole foreign debt of the Province, which amounts to £8,200,000 sterling, or nearly three times the sum expended on the docks.

On the other hand the holders of the Ensenada loan seek to get he docks in payment for the £3,000,000 of their money. The Government is willing to cede not only the docks but public lands adjoining the same, with an area of 1,500 acres, but it appears that of this area at least 750 acres will be requisite for sheds and accessories for the completion of the works.

The primary consideration for the Government and the holders of Ensenada loan is to fix more or less the market-value, prospective rather than present, of the port of Ensenada or La Plata. Tonnage fees in most ports average two shillings a ton, and the entries in La Plata last year were 200,000 tons: this is equivalent to £20,000 gross receipts. We are justified, however, in anticipaling that before the end of the century the entries will rise to a million tons, representing a gross income of £200,000, say a net annual product of £150,000 sterling.

In case the Ensenada bondholders agree to the terms offered by the Governor (and if they be wise they will hasten to do so) the holders of the existing foreign debts of the Province may agree to form an Ensenada Port Company, capital $5,000,000 sterling, it being stipulated in their compact with the Government that port-dues are not to exceed two shillings a ton. As soon as the entries reach 1,000,000 tons, say about the year 1898, the net proceeds will probably be £150,000 a year, equal to 3 per cent on the Company's capital.

Should the bondholders resolve to reject the Governor's proposal the prospects before them are far from flattering. The revenue and expenditure for the last two years shewed as follows:—

	1890 $ currency	1891 $ currency
Revenue	9,810,000	9,000,000
Expenditure	20,860,000	20,500,000
Deficit.....	11,050,000	11,500,000

Minister Moreno says that the deficits of three years exceed $33,000,000. The actual debt of the province, according to His Excellency, is $171,500,000, the interest on which at 6 per cent would be $10,300,000, a sum greater than the total revenue of the Province. The Minister's estimates for revenue in 1892 are only 9,005,000 dollars currency.

Under these circumstances it is pretty clear that the Ensenada bondholders ought to accept the terms now offered by the Government.

BANKS AND BANKING.

On this subject we observed the other day that banks have a powerful influence on a nation's welfare, either for good or for evil. It is a remarkable fact that the successful stand made last year by the London and River Plate Bank in the most critical period of the crisis proved the turning-point, from which we may date the Renaissance in Argentina.

We are at present apparently at another turning-point, and it is difficult to foresee what course the current of affairs is likely to take. In the first place we have the conflict between the Caja de Crédito and the Argentine Bank. In the second the Provincial Bank pretends to resume its career of public utility by lending out money to deserving individuals, while refusing to pay what it owes to its depositors.

The controversy between the Caja de Crédito and the Bank, both Governmen institutions, is closely connected with the currency. It seems that the Bank insists that, according to its charter, the issue is not to be limited to $10,000,000 of shin-plasters, the stipulated amoun of Serics A, but may be made extensive to the whole 5 series, say 50 millions. This was not the interpretation given to the charter when voted by Congress, as it was expressly laid down that Series B could not be issued until the whole of Series A waa subscribed for, by the public.

We have been, moreover, taught to regard the Caja de Crédito as a special safeguard of public interests, to prevent any improper, illegal or clandestine issue of notes, and for this reason public sentiment will certainly side with it in the present quarrel, and view with suspicion any steps that may be taken to impair its authority or nullify its resolutions.

The whole system of State-banking as President Pellegrini has publicly declared, has proved so disastrous to national interests in the last three years, that every possible safeguard should be devised to prevent a return to evil times. The present Board of the National Argentine Bank are reputed to be men of the highest patriotism and honesty, but their successors may be the reverse. If the control of the Caja de Credito be rudely set aside what will be the result?

Meantime some of the confusion that now prevails is said to arise from the Government decree of last June, whereby the Bank is ordered to lodge with the Caja de Credito 75 per cent of its deposits. This is not stipulated in the charter voted by Congress, and would seem to be injurious to the first principles of banking, for if a bank be prevented from lending out its deposits its banking-power is crippled.

The banking-power of nations consists far less in capital than in deposits, as the following table shows:—

	Capital	Deposits	Total
	Banking-power, millions £ sterling		
G. Britain.....	284	626	910
Germany.....	85	146	231
U. States.....	270	760	1030

It would seem, therefore, that the decree which prevents the Bank from utilizing 75 per cent of its deposits is extremely unwise and ought to be repealed.

As regards the proposed action of the Provincial Bank we can imagine nothing more dishonest or more calculated to injure the credit of the country. Depositors are at present selling certified cheques at a discount of 40 per cent, and yet the Bank is going to lend out to other persons the money due to depositors.

The shifting and uncertain method of banking legislation in this country is an evil of the first magnitude. We have one law to-day, another to-morrow, and expediency takes the place of morality. In the present instance we cannot foresee what action the Government may take in the quarrel between the Caja de Credito and the Bank. It may declare that both are right, or that both are wrong. In either case public confidence is shaken.

It is said of the Bourbons that they learn nothing and forget nothing. Our rulers seem to have learned little in matters of currency and banking.

OUR LONDON LETTER.

(From our own Correspondent.)

POSTSCRIPT.

July 9.

You will find in the *South American Journal* of this week some interesting extracts from Mr. Consul Bridgett's Report upon Argentine Finance, and also a political review written by a member of the Civic Union from the Radical side of the question. There is in addition a report of the meeting of the Argentine Land Company. In regard to the Santa Fé Land Company, I send an article from the *Financial News* which may interest you. But in point of fact there is no material for any new observations in respect to financial matters in general or in particular. It is obvious from studying the correspondence from Berlin, Paris and other capitals in the London weekly financial papers that stagnation exists everywhere. The British Board of Trade returns shew a very large diminution in the foreign trade of the country compared with the same period of six months in 1891. I see that the Italian returns are equally unsatisfactory, except that raw silk and wine help to increase the total of exports. The falling-off in the exports of coal, iron, machinery and railway material wherever those articles are staples exposes one of the main causes of unfavourable official Trade Reports. The position of affairs, either political or financial or both, in Chile, Argentina, Brazil, Venezuela, Italy, Spain, Portugal, Russia and lastly our own Australian colonies, to some of which London flatly refuses to lend, clearly explains why coals and railway plant and machinery should not be much in demand. In a capitalistic system all comes to a stop without money. If England will not lend, neither shall she eat—or not as much as usual. She knows that; but she says the capital, the manure-heap, is made here; and she prefers doling out until people who want it can give better guarantees for its security than they do. Hence the 4 per cent you complain of on railway expenditure to pay directors in London. The additional expense is the least evil. The great evil is that British railway interests in the Argentine, for example, are not so well served in London as they would be by independent management on the spot. But we all remember the old proverb 'More Irish than the Irish.' What faith can be placed in local financial management in Corumbá or Tehuantepec for instance, when God-sirving Englishmen in Melbourne, Hobert and Sidney are not to be trusted with a bank or the handling of a loan. So for the present we must lend less, spend less, and be content to see our exports diminish in volume and value by 13 per cent, until the world grows more moral. Meanwhile we have the pious satisfaction of knowing that our neighbours in Italy and Germany are worse off than we are. In the United States they have come to settling economic questions by knocks, and very hard knocks, and by threats of dynamite, as you will see by your own telegrams and by the enclosed accounts of the fighting at Carnegie's works at Homestead. The men on strike were attacked by "Pinkerton's detectives," a curious institution, which we are told has risen into an executive semi-military force out of what was originally as we should call a "Private Inquiry Office." Pinkerton's detectives were armed with Winchester rifles, but they were outnumbered by the workmen, who were armed with Colt's revolvers, and in military fashion made fortifications of bundles of steel rails. They captured the entire lot of detectives, and have now got their Winchesters and ammunition. The Pinkertons are about to attack again in force; 400 of them have been told off for this special service at the "Pinkerton" head quarters. The men at the works are erecting defences and patrolling the railway lines and stations. In the last case they threatened to blow up Mr "Triumph of Democracy" Carnegie's property with dynamite. Mr. Sheriff McCleady, of Pittsburg, called out a "posse comitatus" of citizens to send to homestead to suppress the rioters. Only 23 of the "posse" appeared; so that idea was abandoned.

The quarrel between Count Caprivi—representing the Government — and Prince Bismarck continues, and may become more serious if the ex-Chancellor does not condescend to yield. Count Caprivi has been publishing State documents to prove that Prince Bismarck's statements in regard to "entente" between Germany and Russia when he was in office are false. The Count threatens to publish other documents still more compromising, whilst out-and-out Bismarckians on their side threaten an anti-dynastic agitation. The *Cologne Gazette*—an old turn-coat—has taken the side of the Government, and perhaps the good sense of the German nation will enable it to see that for military and State reasons it cannot just now afford to trifle with rebellion, however just.

There is such a noise in Whitehall Place I am obliged to retreat to Chancery Lane for peace and quietude. You are not interested in the state of the poll, but only in results, which you will have. Still as a record I may say that, at the end of the first week of this great election, the Conservatives secured 195 seats and the Liberals 164; 369 members are returned out of 670. This was at 2 p.m., when I left the Radical Centre. The poll may be different to-night, and during the day the Liberals have gained 6 seats in the Counties. The race up the ladder is very tough, and all idea of Mr. Gladstone "sweeping the country" must be abandoned.

There is no cholera in London, and no Asiatic cholera in Paris or in Europe.

THE AFFGHAN TROUBLES.

With reference to the alarming telegrams received yesterday from Europe we extract from the *Times* of July 8th the following:—

The Government of India is at present deeply concerned at the progress of events, as it warned the Ameer Abdurrahman that no attack was to be made on Umra Khan, who has recently inflicted a severe defeat on the Ameer's troops. The state of affairs is causing more anxiety than anything that has occurred in Afghanistan since the Penjdeh affair seven years ago. The news is vague and unsatisfactory, but it is abundantly clear that the Ameer has troubles in several directions. Most of them are due to his own interference with the tribesmen. It seems certain that a collision has taken place between Umra Khan of Bajaur and the Afghan troops under Gholam Hyder at Asmar, and it is reported that the latter were worsted. Whether this is true or not, the fact that there has been fighting will doubtless serve the Ameer as a pretext for further encroschments on the Bajaur region, which has been expressly declared to be beyond the sphere of his influence. Then, again, there is some restlessness among the Afridis and Orakazis, apparently prompted from Cabul, and it is believed that two parties have been sent to raid British territory. Similar reports come from the Kuram valley and Wana, near the Gomul Pass, while it is certain that the Afghans have made an unprovoked raid on the country under British protection in Beloochistan.

Rumours are afloat as to disaffection among the Ghizais, and it is by no means certain that the revolt of the Hazaras will be amicably settled. It seems beyond doubt that the abortive rising of the Hazaras had Russian support, and the belief prevails along the frontier that further signs of Russian activity are likely to manifest themselves before long.

Altogether the situation is such as to call for the closest watchfulness on the part of the Indian Government.

The Indian Government has formally warned the Ameer of Afghanistan that should further disturbances occur between the Afghan troops and Umra Khan it will insist upon the Afghan forces under the command of Gholam Hyder Khan leaving Asmar; where they have taken up a position threatening the Bajaur States.

Amin Kuki Kheyl tribesman, who was recently deprived of his allowances by the Government for misconduct, has attacked Fort Maude in the Khyber with two or three hundred Afridis and Kuki Kheyl malcontents. The small garrison of Khyber Rifles made a stout defence, and the attacking party withdrew on hearing of the approach of the main body of that force from Jamrood. The Afridis as a body do not sympathize with Amin Khan, some sections having blocked his passage through the Bazaar Valley.

PROVINCIAL NEWS.

Telegrams received yesterday from Jujuy report serious disturbances. It appears that last Sunday the irrepressible Radicals got up a manifestation. The Situationistas, not to be behindhand, immediately organized a counter manifestation. As usual under such circumstances, the two columns collided, and then the row began in downright. Revolvers and knives were freely used. Mr. Augustus Belmont, a leading Radical, was killed, 4 others were dangerously wounded. The list of casualties would have been a long one but for the timely interference of the police, who succeeded in dispersing the two manifestations.

Governor Pizarro, of Cordoba, seems determined to put financial matters straight in that learned province. He will not countenance any concessions, and he has just informed a patriotic landowner who claims $400,000 for a piece of land crossed by a canal, that he will not pay him a cent. The Governor's energetic attitude will not make him popular in certain circles, but he is evidently the right man in the right place.

Talking of Cordoba, the Governor has laid before the Local Chambers the Budget, for next year, which shews a surplus! The provin-cial legislators have declared the Provincial Bank to be the State bank of the province.

Telegrams received from Mendoza yesterday give an account of the obsequies of the late Governor, Mr. Diocletian Garcia. The funeral was a most imposing affair. The Chambers, tribunals, local garrison, Municipal corporation and other authorities followed the hearse to the cemetery. Speeches were delivered over the coffin. The late Governor was held in high esteem and his death is much regretted.

Letters from the Sastre Colony in Santa Fe state that it has rained plentifully there, and that the wheat and linseed plantations are looking splendid. The little settlement is progressing rapidly and there is a deal of local enterprise. Messrs. Berger and Co., for instance, have started a flour-mill on a large scale. The one difficulty the settlers have to contend with is the wretched condition of the highroads. This is a question for the Sastre Municipality to settle, but we presume that the corporation in no way differs from similar bodies in the other towns of the province.

LATEST FROM MONTEVIDEO.

Sunday.

The Government have laid a bill before the Legislature in regard to the land tax or Contribucion Directa. It is proposed to make the tax a uniform one of 6½ per mil. The valuation of real-estate in the city and suburbs would include that of everything on it, while only the value of the land is to be appraised outside the municipal limits. The Committee of the Legislature have reported on the bill and urge the honorable representatives to sanction last year's valuation.

Some port statistics were published yesterday. Last month 57 steamers with a tonnage of 95,179 and 26 sailing vessels with a tonnage of 20,826, in all 116,005 tons, entered port, while 42 steamers with a tonnage of 78,453 and 13 sailing vessels with a tonnage of 6,446, in all 84,899 tons, left port.

Arrivals and departures were—

The works for the demolition of the walls of the old British Cemetery have been commenced. It is expected the place will be perfectly clear by the end of the month.

The concert in the La Lira on Friday night was a great success. The entertainment was for the benefit of Professor Bustamante. He took an active part and was warmly applauded, particularly in his rendering of Schubert's serenata. Messrs. Sivori, Seligmann, Trapani and Mazzuchi were also loudly applauded.

The Custom House returns continue to shew a falling-off. The Director handed $5,030 yesterday to the London Bank.

Letters have been received stating that Dr. Dufort's villa near San Fructuoso was recently attacked by bandits, who did a lot of damage, but luckily killed no one, although they fired on several people.

Another application has been sent to Government for running a steamer between Montevideo and Paloma. This last application will probably be accepted.

Monday Evening.

The barque Granito, which was wrecked off the Rio Grande Bay, will be floated again.

The Argentine squadron arrived yesterday at midday at Maldonado. Practice will begin to-morrow.

Ex-Deputy Melian Lafinur leaves shortly for Europe.

The Banco de Cobranzas has declared a dividend of 4½ per cent.

It appears from the investigations into the Custom House frauds that several strong commercial firms are seriously compromised.

The Brazilian pilot Echebarne died yesterday.

At the meeting of the creditors of the English Bank held on Saturday, it was decided to accept the moratorium proposed by the Liquidating Committee.

RAILWAY ITEMS.

Technical Inspector Ortiz Viola, in his report on the proposed signal-service at the crossing of the Pacific and Central Argentine lines, near Junin, observes that the crossing in question is a very dangerous one. In regard to the signals he thinks the posts should be put up on the left hand side.

The Board of Public Works have reported favourably on the plans presented by the Fives-Lille Company for the construction of a wharf at Rosario.

The Cordoba Senate have accepted Messrs. Stewart and Co's. project to build a railway from Cordoba to Concepcion del Tio and Mar Chiquita. The concession is to last seventy years, and the concessionaires will, moreover, have the privilege of working the fisheries of Mar Chiquita and starting bathing establishments. The concessionaires give 50% of the proceeds of the fisheries and bathing establishments to the Government every year.

It appears that a project has been laid before Congress for building a railway from Buenos Ayres to Entre-Rios and Corrientes. This is the Moneto proposal, particulars of which we published many months ago. The line would start from Alsina station on the Western Railway and cross the Parana by means of a pontoon such as have been tried with such success in the U. States. It is probable the Committee of Public Works will report favourably on the project.

The take the following from the *Railway News:*—

The receipts of the seven principal Argentine Railways published this week aggregate £57,433 compared with £41,223 for the corresponding week of 1891, an increase in 1892 of £16,212, or 39 per cent.

The mileage open to service was 3,633 in 1891 against 4,011 in 1892, equal to an increase of 10½ per cent this year.

The average receipts per mile per week were £11.6s11d last year, against £14.6s.5d. this year, an improvement of 26 per cent for 1892.

The value of the £ sterling was about $20.50 in the corresponding period of 1891, against $16.35 in 1892, the appreciation in currency being equal to 25 per cent this year.

Of the increase of 39 per cent. in gross earnings, 25 per cent. is due to the higher value of the currency, and 14 per cent. to increase of traffic. The improvement of 26 per cent. in the earnings per mile per week may be allocated thus, 25 per cent to the appreciation in the currency, and 1 per cent. to actual traffic increase. The improvement is a substantial one, having regard to the increase in the mileage of lines recently opened.

We are glad to observe a very notable improvement in the receipts of the East Argentine Railway, from £3.11s.7d. per mile per week in 1891, to £9.7s.11d. in 1892. The aggregate receipts of this line have for the first time overtopped those of last year, and it may be hoped that the tide of prosperity has set in.

We regret to notice that the movement over the Uruguayan Railways has not begun to show any signs of improvement.

PASSENGERS' LUGGAGE.

Mr. Editor,

Can any of your subscribers advise me under the following circumstances?

The Galileo, which arrived on Tuesday, brought out an English baker and pastry cook for the "Creamery". On arrival of the steamer she was boarded by the agent of the "Confianza Express" who received the man's luggage and put a number upon the package and entered particulars in a list containing the names and packages of the remaining passengers, and subsequently placed it on board the Stella. The man, assuming that his things were safe in the custody of the agency, came straight up to the Creamery without troubling himself more about them, thinking they would be forwarded after him. Since then no trace whatever can be found of the package, and the Agency tell me it is all the man's own fault for forsaking his luggage, and that they are in no way liable.

Can any one tell me if this is really so? It seems to me almost impossible; but, if correct, I think the public should be put upon their guard and know how little use these express agencies are.

Yours truly,

The Manager of the Creamery.

521 Cangallo.

EDITOR'S TABLE.

The week opened yesterday in a take-it-easy fashion. The row in poor, seedy, Jujuy made no impression, though it may frighten our timid London friends. "Our Own" in the Big City says that Mammon there has buttoned his pockets and resolved not to lend sixpence more to even his nearest and dearest colonial relatives, much less to any foreigner, for a considerable time to come. This is excellent news, as it puts a snuffer on any idea of a new loan to "help" Dr. Peña's new Government. The country has had in the past quite too much disinterested help of the kind.

General Roca arrived in town yesterday afternoon from the Interior, much improved in health by his visit to Rosario de la Frontera.

The Regatta on Sunday was a great success. All day long citizens of all degrees poured towards Dock Three, and the crowd was great. The weather was nice, but the air had a nip in it. The foreign war ships and others in the dock had all their bunting flying. The Chilian Minister was on board the President Pinto, and there was a sumptuous lunch for all visitors. On board the Essex and other men-of-war lunch was also served. The first, two oared, race was won by Carlos Sackmann, B.A.R.C; the 2nd. four-oars, by the Teutonia Club; the third, canoe, by Mr. F. Hartman, B.A.R.C.; the fourth, two oars, by J. Von Houten, R. Breeks, J. P. Von Houten, cox.; the fifth was won by a crew from the U.S.S. Essex; the sixth, four oars, by Roberts, del Pino, Cazon, and Coelho. The seventh, canoe, by Hartman.

The news from Rio Grande is important. The Chambers have struck work and resigned "en masse." Political affairs in that quarter look rather breezy, and a storm may be looked for.

Congress will give President Pellegrini leave to sport that funny order of chivalry "Bust of the Liberator" invented in Venezuela. Sr. Ortiz Viola has been dubbed a Knight of the Legion of Honour.

The exhibition of Ladies' Needlework for the benefit of the Rosales Fund is now open at 1144 Rivadavia every night from 8 o'clock, and is worth a visit by our fair readers. Entrance one dollar.

The weather was as raw yesterday as a new arrival from Europe; but the camps are as green as the same individual. So long as the camps are green and flocks, herds and horses fat, the country goes ahead.

An early-to-bed printer made us say on Sunday that the concert at Banfield to night was an ante-prandial one, and would come off at *five* o'clock. No, Senoras y Senores; have your dinner comfortably as usual; be in the concert room at *eight* o'clock, and you will have a first-chop night's enjoyment.

Major Barritt requests us to say that he has on the S. A. farm several families who seek employment. They are good, tried people, with one or two children each. The wives can cook. Also a number of English, French and Dutch peones.

Comendador de Azevedo, a distinguished Brazilian, who is at present on a visit to the Plate, Dr. Assiz Brazil, Dr. Ferreira and others, paid a flying visit on Sunday to the famous estancia of Mr. Leonard Pereira. Mr. Alfredo Sandels, the Manager, entertained the party, and shewed them over the estate.

The theatre-mania is greater than ever. Every night the theatres are crowded. Otello in the Nacional drew an overflowing house on Saturday and Sunday nights. Cavalleria Rusticana was given, on Saturday and Le Donne Curiorose on Sunday night in the San Martin. There was not an empty seat in the house. Signor Pagano, the new tenor, is a great acquisition to the Tomba troupe, and he is already a great favorite with the public. The Folies Forlet, Doria, Comedia etc., are also doing a roaring business.

See advertizement, for change of office of the well-known architect Mr. Altgelt.

Olmi's auction to-day at 1230 Calle Callao offers a prime chance for bargains. Don't miss it.

Seventy-eight babes were born; 27 loving couples were buckled for life, and 28 good, bad and indifferent citizens "shuffled off this mortal coil" yesterday.

The total number of occupied dwellings in the United States in June, 1890, was 11,483, 318. In 1880 a total of 8,955,812 dwellings was returned, showing an increase of 2,527,506, or 28·21 per cent., during the decade. The average number of persons to a dwelling in 1890, for the United States, was 5·45 as against 5·60 in 1880.

The mails for the Pacific steamer Patagonia close to-day at 10 a. m. This half-before and half-after breakfast hour is awfully inconvenient, but it is not the fault of the Post Office.

The Rosales subscriptions have been added up and reach only 481,000 shin-plasters. This means in good sovereigns about £30,000; or half the cost of the new vessel.

Captain Blanco's little squadron has got safely to Maldonado port, where it lay at anchor on Sunday, to the pleasure of the inhabitants.

The concert in Belgrano for the Rosales Fund was a great success, and the Town Hall was full of fashionables. The three ladies in the programme were the heroines of the night in this order; Miss Lumb, Mrs Kunz, and Mrs Paprotnik. The gentlemen amateurs were not much behind the ladies, if at all. The "buffet" was attended by fair dames and damsels, and turned in lots of cash, as there was no fixed price, or anything to prevent patriotic gentlemen giving $500 for a "lady's finger" biscuit. Given this price for a finger, what would a hand be worth in the eyes of many of the purchasers?

Wife—I know that Mrs. Brostone was thinking all sorts of horrid things of me while she was talking to me.

Husband—Why, my dear, I don't understand why you should say that. She certainly was very pleasant.

Wife—Oh, yes, of course, but she kept looking at my dress all the time she was talking.

"Youth's Companion" tells the following good story:—

"The Rev. John Russell, a clergyman of Devon, was as simple in manner as he was kindly of heart. In 1874 he was invited to visit the Prince of Wales and enjoyed his visit with such unfeigned zest that it proved a genuine pleasure to his entertainers. His honest simplicity never forsook him, and it is said that in talking with the princess he inoncently contradicted some remark of hers. "No, no, my dear," said he, as he often had said before to other women as far removed from him in point of years; "no, no, my dear," "tis not so!" No one knew whother the princess noted the slip, but if she did it merely amused her. But this little informality must have been amply atoned for by a frankly gallant speech which the old clergyman made to her on the last night of the old year, when he had the honor of her hand in the dance. "Now," said he, as the clock struck 12, "I can say what no other man can ever say again." "And what is that?" asked the princess. "That I have had the honor of dancing out the old year and dancing in this new one with your royal highness."

We saw with pleasure an open car on the Nueva Tramway Co. on Sunday. Sure sign that smiling Spring is at hand.

Engineer Stavilius's report about the San Roque reservoir in Cordoba shows that 22 metres of the upper part of the wall are dangerous, as the water filters through. By keeping the water below this level there will be no danger of Cordoba being washed away.

The news from India looks ugly: Nevertheless, we have an idea that it may turn out like the recent bombshell news from Mule-y Hassan's empire, which Sir Smith (as our Argentine and French friends delight to call him) declares to have been grossly exaggerated.

Fact. Deserving case for perseverance. Applicant (a young man, 18 years of age, strong and healthy.) "I wish to be sent home at the expense of the British Government." Consul. "On what grounds?" Applicant. "This country is no good—cannot find work." Consul. "Why did you come out?" Applicant. "I stowed away in a steamer and arrived at Buenos Ayres five days ago." Consul. "Heavens! what next?"

The death rate of the city in July was 1242 against 1693 in June. Evidence that the Influenza Fiend is getting tired.

The Bateman Legacy representative has complained to the Minister of the Interior of the delay of the Commissioners in investigating the charge against Bateman, Parsons and Bateman of trickery as agents of the works. The "espediente" was laid before the Attorney General and when he reported on it it was sent to the Commissioners, but they are, so far, dumb on the subject. Bateman's representative says very properly that charges like these, which affect the Administration and private individuals, should be cleared up as quickly as possible; and he begs the Minister to order the Commissioners to bestir themselves.

Now, penniless bachelors, take a through ticket for Berlin. The richest heiress there is said to be a Frl. Hildegard von Loucadon. She is worth £400,000.

The fortune of the late Jules Lebandy, the great sugar refiner and speculator of Paris, is estimated at 300,000.000 francs, probably the largest fortune in France.

In Chicago—Miss Porker — "And so your engagement with Mr. Backbay is at an end. How did it happen?" Miss Lakeside—"Why he said he wanted to have a grand wedding, as it was an affair that comes only once in a person's life." Miss Porker (indignantly)—"The idea."

There is a good chance of the River Plate hearing the new opera Elaine, by the already famous Franco-Argentine composer, Maestro Bemberg, who is in treaty with the well-known empresario Grau on the point, and intends to come here himself to direct the performance. In reference to how he came to write Elaine the brilliant young composer says:—"I read the poem of the 'Death of Arthur', and the story of Elaine took my fancy. After having inspired myself by Tennyson and the illustrations of Gustave Doré, I set to work to put M. Paul Ferrier's adaptation of the story to music. This I can say: I have im

ON 'CHANGE.

Monday, August 8th. 1892

The week opens with a dull market in stocks and gold. There are few prospects of any activity up to the end of the month, unless something unexpected takes place in politics and confirms the croakings of the few pessimists in the hall. Gold ruled steady to-day, more or less at the same prices as on Saturday. Thirteen thousand ounces changed hands at the first ring; the price opened at $52.80, fell to $52.50, and closed at $52.70, say 223.80% premium. Sovereigns closed at $16.40, or 225.38% premium. Gold on time is quoted at cash figures and is in little or no demand. Brokers state that the so-called "house upon house" busines has dwindled to insignificant proportions.

Speculation in Patriotic and Internal Bonds was dead-and-alive, but prices were maintained. There is a general conviction that a deal of money is going into this stock, and such is no doubt the case, but the operations on the black board do not give an idea of the business going on. When we consider that the market is flush of money and that these bonds are the only reliable speculative stock available for the present, it is a wonder that they do not change hands by the million every day; yet the speculation is insignificant. About one hundred thousand changed hands this morning, Patriotic Bonds closing at 72, and Internal at 67.10 for cash and 67.90 for end of September.

There was quite a spurt in shares of the Catalinas Company, the price for cash rising to 10.30. Municipal Lottery Bonds were steady at 61 and Spanish Bank shares at 104. La Plata Cedulas fell all along the line to 29.20, closing weak at the rate.

Exchange and discounts continued in "statu quo."

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Telegrams from Patagones announce that the Platense steamer Mercurio left that port yesterday with 450 tons of salt of the Rio Negro Salt Company Limited and a large consignment of general produce. The same advices announce that it has rained heavily in the valley and the season promises well.

Mr. John Oldham, manager of River Plate Telegraph Company, was welcomed to-day on his arrival from the Mount where he reports affairs dull in view of the money crisis.

The Nord-deutscher Lloyd steamer Kronprinz Friedrich Welhelm, from Bremen, will be in port to-morrow; she brings 7 first-class passengers and 46 third-class and general cargo.

We see in the Customs report of Montevideo for the month of June last that the arrivals of gold in that market during that month amounted to $140,339, the bulk from Brazil; against an exportation of $268,862 gold, the bulk going to Brazil. The revenue of the Custom Houses of the Banda Oriental during June were, viz:—

We call attention to Messrs Collet and Llambi's advertisement in another column, offering for sale a fine piece of land, belonging to the Granel "testamentaria" in Belgrano.

The Italian steamer Duca di Galliera left Rio on Saturday for the Plate.

At the English bank meeting held in Montevideo last Saturday the creditors were informed that they had four months to consider whether they should accept the London agreement: the terms of this agreement were explained at length as well as the position of local creditors. A vote of confidence was then passed in favor of the liquidating commitee.

Two vessels are in a critical position off Punta Piedras: one is known to be an Austrian with a cargo of lumber. Mr. Nervich telegraphed from here to the Mount that the tenders Emperor and Plata should start immediately to give them assistance.

The R. M. S. Magdalena, which took from here 23,000 sovereigs, took from the Mount £49,000, nearly all for Rio Janeiro. The Rio market is absorbing a lot of River Plate gold. Nearly every packet leaving the Plate takes gold for our neighbours: the Bresil took £40,000 last week.

The Chargeurs Reunis steamer Pampa left to-day with 2500 bales of wool and 1000 tons of maize and linseed for Havre and Dunkerque.

The steamer Colombia left La Plata to-day with 3000 tons of maize and 300 bales of wool.

The steamers Paraguay and Astrea have arrived.

A league of land in the district of Tandil is reported sold for 65,000$ m/n. Buyer, J. Madarriaga.

The shareholders of the Mercado Central de Frutos met in the top parlors of the Bolsa to-day to listen to the report of the year's working. The leading points of the report have already been published in these columns.

The following shipments of maize by Messrs. Weingreen and Co. from San Nicolas during last month give an idea of what is going on in maize at up-river ports:—

Telegrams from Rio quote exchange on London steady at 10 5/16d.

Messrs. Wm. Gowland and Co. sold yesterday in Ramos Mejia about one hundred hectares of land at an average of 1,600$ m/n per hectare. Buyer, Mr. Olivos.

Messrs. Biscuccia have sold a lot of South Down rams and ewes at 200$ per head placed in Rio Janeiro.

Messrs. Belisario S. Garcia and Co., well-known in auctioneering circles, have opened new offices in Calle Cuyo No. 447, where they start a business "en liquidaciones," embracing real-estate, stocks, shares, etc. etc. We wish the firm every success and support.

Maize ruled very firm and in demand to day at 6.50 to 6.60$ per 100 kilos; the latter price is also quoted up river. Heavy shipments continue.

Freights are very low, in spite of the large shipments of cereals; 12s is current, and 12½ fcs.

Cheques of the Provincial Bank closed at 39½% discount; those of the National Bank at 20¾% discount. Very little business was reported. Bonos of the La Plata Mortgage Bank closed at 18¼% of their full value.

Don Diego Ramsay, the well-known consignee, presented to-day to the Inspector General of the Chicago Exhibition, Mr. C. Lix Klett, some very fine samples of barley and wheat from the Chubut valley. Messrs. Devoto, Gallegos, Balvioni and Co. presented also some exceptional samples of Chubut wheat from Mr. Danies's farm.

The stock of wool in deposit is beginning to move off at last, but at prices that will convince farmers of the folly of storing their produce. Mr. Lrborio Novoa sold to-day in the Central Produce Market 80 tons of wool of good 'pasto fuerte' quality to a leading French exporter. About 150 tons more of wool in deposit from the Western and Southern districts were also moved off, taken up by French and German buyers. These wools were deposited when market prices were quoted at 9.90 to 10$ per 10 kilos. They now sell at 8¼ to 8.80$. Other qualities stored away when their market price was more or less 8.80$ were sold to-day at 7.50$ per 10 kilos. Farmers and Consignees see the folly of holding on and are letting go at last.

The appeal of the "alto comercio" to Governor Costa to concentrate produce business in the Central Produce Market is going round for signatures. Nearly all the leading exporters' names figure in the list, and estancieros are now also joining the movement.

Mr. Charles Fremery sent to-day to the Exhibition Committee 18 very fine samples of wheat from the Salazar colony in Pehuajo. This wheat fetched top prices for export in the market.

Mr. Antonio Amorena is preparing an interesting publication under the name of *Anuario Comercial, Agricola y Industrial* for 1893: as the title shows, the scope of the work will be very large and will fill a large volume. We have no doubt that Mr. Amorena will compile a most interesting work and at the same time will meet a long-felt want in Spanish.

The Lamport and Holt steamer Galileo will leave on the 12th inst. calling at Bahia, Funchal and Lisbon.

The German steamer Frankfort will leave on the 10th for Las Palmas, Vigo, and Antwerp.

The German steamer Bahia, from Hamburg, arrived at Montevideo to day.

The R. M. S. Magdalena entered Rio de Janeiro at day-light this morning.

The Andrea Doria left Santos for the Plate last Saturday with 400 passengers.

The R. M. S. Thames left Rio on Saturday, and Santos yesterday. She is due at Montevideo on Wednesday and will be in the La Plata Dock on Thursday morning.

Amongst the passengers arrived by the German steamer Kronprinz Friedrich Wilhelm we note Messrs Rachit, Goldenhorn and Peeters.

Telegrams from Montevideo state that prices on the Bolsa are still falling; there is no paricular news of any description.

The gold market ruled firm at the second ring: six thousand ounces were sold for to-morrow at 52.70$ to 52.90$, closing at 52.80$, say 224.41% premium. The croakings of the pessimists with regard to impending disturbances were louder than usual, this afternoon, but little importance is attached to the gossip. Patriotic Bonds fell 10 cents, to 71.90. Internal Bonds were stationary at the morning prices. Catalinas advanced to 10.40 for end of month. La Plata Cedulas were very weak and fell: some large holders entered the ring to sell and upset the market: the closing rates were 29 for G, 29.20 for L and P, 29.10 for O: the decline was general.

The following is a summary of the business effected in stocks and shares at the second ring to-day:—

Ounces—

Mr. Manson, formerly clerk of the Banco de la Nacion, has now started as exchange and money broker; as he has a wide connection he will probably do a good business; as things are brightening up on the Bolsa for the brokers, who have made more commissions within the last two months than they had in the 12 previous.

A merchant has published in the *Prensa* a very complimentary letter respecting the quick despatch of the exchange clerks in the London and River Plate Bank, which they well deserve, as, notwithstanding the great pressure of business in this bank on mail packet days, the bills are all made out and ready in a few hours. In former years we always had to wait a day to get bills of exchange; now they can be had in a few hours.

We take the following telegraphic advices from the *River Plate Review*:—

"Government stocks show a drop of one point, which is likely to be greater next week in view of the unpleasant rumours again prevalent in the market.

"Banks and Railways remain stationary, with the sole exception of Great Southerns, which have also dropped one point."

Advices from the Banda Oriental are not at all favourable; the Central Uruguay railway has cut down its passenger time-table nearly one-half and has now only 3 trains a week to Perez and Minas and 2 to Rivera. The Northern extension, built by Mr. Crawford, is not paying expenses.

Baron von Pollnitz, we learn, embarked on the 5th inst with his family in the steamer "Handel." He took with him a good consignment of Argentine horses, which we hope will turn out well.

A question having been raised respecting the titles to lands in Santa Fé, which Mr. Bulrich will sell on the 10th inst., the following most respectable parties have come forward to contradict the statement and to testify to the validity of the titles of those lands which are to be sold. Evelino Rolon as representative of Messrs Mallmann and Company, Ernesto Tornquist, Dr. Juan Jose Romero. Dr. Aristobulo del Valle, Dr. Mariano Demaria, Ataliva Roca, Ignacio J. Sanches, Gregorio Torres, Dr. Jose Maria Rosa, successor to Benjamin Butler, Tristan A. Malbran, Francisco Bustamante, Emilio Casal, Adolfo Casal.—*Evelino Rolon*, Maipu 119.

Business in real-estate, both in the city and in the camp, shows within the last two months the most remarkable growth, an unerring evidence of the silent progress of improvement which is going on. About a week ago we published a statement of one of our most leading real-estate brokers, to the effect that this time last year houses within five squares of the Plaza Victoria were unsaleable, whilst to-day, even in the remote streets, at every auction called there are bidders. We know of a splendid bank building that a few months ago, when Mr. Dick Cunningham came out from London, was offered to him and even pushed on him, for £50,000, which with the wisdom and prudence of a London man, he declined; to-day he could not buy the same property for a shilling under £100,000, and it is even doubtful if it would be sold at that figure. In the office of the Contribucion Directa, where the sales of city properties have to be registered, they are up to their eyes in business, and the following sales are reported:—

Calle Santa Fe No. 1722 with 13.85 metres front by 50.66 depth for 24.000$.

Calle Tacuari No. 344, with 9.45 metres front by 29.48 depth and Calle Belgrano No.873, 15.25 metres front by 62 depth for 82.400$ for both properties.

House Calle Cangallo Nos. 2293, 95, 97, and 99, corner of Ombu 8.66 front by 24 24 depth for $34,000.

Calle Pedro Mendoza No. 102 (corner) 9.30 by 34.64 for 22,000$.

House Nos. 158, 264 Calle Buen Orden 10.62 by 30.31 for $65,000.

House No. 877 Calle Viamonte 12.55 by 52.82 for 90,000$

House Calle Callao Nos. 1718 to 1720, 12 by 40, sold some time ago for 60,000$ now resold for 100,000$.

If to the foregoing we add the large estancia sales in Santa Fe and Entre Rios employing over a million of nats, the large property at the corner of Chacabuco and Mexico and which realised 90,000 nats more than the upset price, although sold under foreclosure, and no sale we published last week, one can form a very good idea of what is now doing in real-estate.

An exchange transaction was effected to-day which is of moment to the market. The bills were drawn against a cable credit and the gold sold; the paper will not be required until November or December for wool purchases; the drawer, however, has secured his price for the gold, and can now base his calculations so as to contract for wools of the new clip. In former years these operations were most usual, the paper money, until the wool came in, was employed in Provincial Cedulas. This year we suppose it will go into Empréstito Bonds, which we note are growing every day in price. Of course, it is not be supposed that the whole amount of the clip, say 350,000 bales, will be drawn for in anticipation, but there can be no doubt that the wool exporters know their own business and are on the alert. Exchange is already showing an upward tendency, and probably next month we shall have gold coming from Rio for our bills.

People should be on their guard how they keep money and stocks in their houses. On Saturday at an early hour in the morning, the robbers entered Mr. Silva's house and cleaned him out of money and stocks; they took 940 nats in Banco notes, 1,500 National gold cedulas, besides over 100 coupons, a lot of fondos publicos, and 20 dollars in gold. Had Mr. Silva kept his money and stocks in the safe-deposit next door to the Banco de Comercio, he would not be with the 'comisario' hunting up the robbers.

It speaks rather well for the tone of Congress the rejection of the measure exonerating debtors of Contribucion Directa tax from fine. and the news was well received on Change and gave rise to much remark.

Property holders must take note that on the 15th instant the time will expire for paying the contribucion directa tax in this city; it is probable however that as the period is so short the time will be extended.

Mr. Runciman's great project for the constructions of a large central Railway station was the order of the day in Congress this afternoon. It seems that Mr. White, formerly the chief of the department of engineers and who went to London on this business, has failed to conciliate the clashing interests of the different railways and no combination could be arrived at in London. Mr. Runciman's scheme is a very vast one, and now, under discussion before the House its salient points will be brought before the public. The Government itself we believe is a competitor in this business, but after the enormous outlay in the building and reconstruction of the National Government house, Congress ought to be very slow in allowing any more Government architectural designs, as they cost the country millions, besides giving rise to a species of political obbery, which unfortunately in this jo ntry has proved the parent of so cany of our troubles.

The business now going on in the export of maize and wheat is positively brisker than since the season began, and none of our exporters last January or February anticidated that at the close of the month of August such a volume of cereals would be available in this market for shipment to Europe. Even the most experienced thought that the month of July would close our shipments; thus the magnitude of the crop has defeated all their calculations, and there are maize and wheat brokers on Change who assert that the new wool will be in the market before all our maize is shipped.

The Minister of Finance has fixed the rate of gold at 315 for payment of Customs dues.

The Finance Minister has cancelled the temporary concession given to the deposits of the Rosario Gas Company; and the goods in them must be transferred to whatever State warehouses the Director General of Revenue may indicate. This step has been taken owing to the abuses committed by the Gas Deposits company. Ships can load and discharge at whatever wharf they like, paying the respective established charges.

The President of the Republic has summoned the Presidents of the Banco de la Nacion and Caja de Conversion to confer with him to-day at 3 o'clock in reference to the disagreement between the two institutions.

TEA
LA MAGNOLIA
INJURIOUS TEA DRINKING.
In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17-73 of tannin, while from China comes only 7-93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.
GUARANTEED PURE.

CHARLES OLMI
A GRANDIOSE AUCTION.
The best, most costly and notable lot of furniture as yet seen in the country; all from Dieust's, Paris. Inimitable regal Tapestry made to order by Gilbert Guel (20 Rue des Capucines, Paris). The owner is going to the Interior and the furniture I now offer for sale must attract the attention of all intelligent people, owing to its absolutely exceptional quality. I must also call the attention of art connoisseurs to the great value of the oil paintings, representing thousands of dollars judciously invested. The artists are all well-known masters, viz: Lancerotto, Caprile, Manfredi, Esposito, Volpe, Bourget, Lalite, Rodriguez, Cariere, Belleuse, La Rosa, Blas and others.
Chandeliers, Carpets, Knick-knacks, Bronzes, Furniture, Tapestry: all are fit for a King's palace. A treasure in works of art; in fact an unsurpassable Exhibition. There is an exceptionally fine Grand Piano by Rachal's.
TO SUM UP: I have never offered for sale, nor has the country yet seen such a set of furniture as this. It represents a fortune.
On Tuesday, August 9th
at noon,
I will sell at public auction, for account of the owner, who is going to the Interior, the costly furniture in his palace at
1230--Calle Callao--1230
(Between Arenales and Juncal)
Details:
The Louis XIV Drawing room: A notable set of furniture, Gobelin tapestry, a magnificent grand piano by Rachals, with bronze "caja armonice," and crossed strings. Imposing chandelier. Inimitable oil paintings by famous masters, Moquette carpets and knick knacks of great value.
SUPERB VENETIAN VESTIBULE full of finely carved furniture.
LORDLY DINING ROOM A LA «RENAISSANCE.» Solid set of walnut furniture, magnificent chandelier, Moquette carpet, divans. Arm chairs in velvet Chairs in stamped leather, glass and porcelain: all of the first quality.
Principal Bedroom.
An Imperial set of furniture made to order in Paris and which must be seen to be appreciated.
Young Ladies' Room.
The furniture of this room carried off a prize at the Barcelona Exhibition.
Bachelor's Room.
Splendid set of English furniture.
Superb Study.
Old oak. Really splendid and complete. Book-case, chairs and writing desks.
Every person of taste in town should inspect this palace, as it is exceptionally furnished from top to bottom. It will be open to the public from Saturday 6th—four clear days before the auction—from 10 a.m. to 11 a.m., so that all can have ample time to examine everything in it, and impress on their minds the excellence of the tapestry, carpets and chandeliers, the beauty and solidity of the furniture, and the unusual artistic value of the inimitable oil paintings. Catalogues will be ready on Saturday 6th, at the Palace itself and at my Sale Rooms 566 Piedad.

EXTRACT OF TOBACCO.

According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.

Directions for use

ESTANCIA Rafango Stud

For sale a number of select Stallions 3 and 4 years old, of Shire, Yorkshin, Coaching, Hackney and Irish Hunter blood.

The above lot of horses can be recommended with entire confidence. For colour bone and action they cannot be surpassed to cross with the average mares of the country; to produce a saleable and generally useful horse for this country or for exportation.

The Rafango Stud of Hackney and other blood mares is probably the largest and most select in the Republic.

The Stud can always be seen by appointment. Apply

y condiciones ventajosas para el pago.

Area a venderse, 233,762 hectareas, o sean 100 leguas kilometricas mas o menos.

Se remataran en la Capital Federal

En nuestra casa Alsina 480 y 482

El Miercoles 10 de Agosto

a las 2 de la tarde

Remataremos por cuenta y orden de una Sociedad y por liquidacion total de la misma, 233,762 hectareas, 66 areas y 39 centiareas ubicadas en la Provincia de Santa Fe, donde como todo el mundo sabe, existen las mas vastas y ricas colonias de agricultores de la Republica y cuyos habitentes no conocen la crisis que ha abrumado al resto de elias, debido a las esplendidas y abundantes cosechas que les han dado estas sin iguales tierras.

La ubicacion de estas queda al Oeste del gran ferro carril que arranca de la capital de la republica y cruza toda la rica y poblada zona de colonias terminando en la ciudad de Tucuman.

Comiénsan las tierras que se ofrecen en venta, en la Estacion Arruño del ferro-carril mencionado y van hasta la Estacion Ceres de la cual distan 2 a 2 1/2 leguas estando ellpresto de ellas ubicadas sobre la Estacion Malbran extendiendose al Sud Oeste de la misma.

Todas estas tierras estan medidas, y midiendose el resto por el Agrimensor Publico, Señor Eduardo Elgarea, y seran entregadas amojonadas a todos y cada uno de los compradores una vez escrituradas.

Copiamos de una carta de dicho Agrimensor, lo pertinente a la fraccion que acaba de medir, que dice:—

"Respecto de la clase de tierra, se puede considerar de tener igual calidad de tierra vejetal de 50 centimetros termino medio de tierra negra, terrenos muy altos, el agua potable obteniendose de 6 a 12 metros. No hay montes espesos, (esceptuando las tierras que estan al Norte sobre la Estacion Malbran donde los montes son muy abundantes y en partes impenetrables) sino isletas de arboles v. g. handubay, algarrobo, palo amarillo, algarrobo negro, etc. etc.

"El lote 85 es algo bajo terreno inferior.

"Los demas lotes son adecuados para la agricultura y se encuentaan rodeados de colonias es mas pobladas y otras en formacion y cerca a las Estaciones Arruño, Herzilia, Ceres, del gran ferro-carril de B. Aires a Tucuman.

"Las poblaciones que se advierten en el plano son pobladores que tienen animales de cria (vacuno, yeguarizo y ovino) en todas ellas hay jagueles para dar agua a las haciendas.

"La temperatura de esta region es la misma que reina en de donde dista unas 20 leguas."

Creemos que con estos datos nada tenemos que alegar sobre la bondad de estos terrenos que solo necesitan los brazos de hombres para hacerlos producir y con sus frutos sacar en un par de años doble de lo que se ha pagado por ellas.

La Provincia de Santa Fe que hace apenas 15 años, puede decirse, hera casi desierta, hoy es un damaro cruzads en todas direcciones por lineas terreas pobladas por innumerables colonias que roboasn de poblacion rica y activa; llenas de molinos a vapor, elevadores de granos, fabricas e industrias sin fin.

Antes del finde este siglo, la Provincia de Santa Fe enviara al mundo de sus granos de todas clases como lo hace en actualmente los Estados Unidos del Norte.

Creemos inutil insistir en mayores detalles sobre lo que son y seran estas tierras; ahi estan sus hechos que dicen mas de lo que podriamos decir nosotros.

Llamaremos si la atencion de los compradores sobre las condiciones de la venta a saber:—

Sin base ni limitacion alguna por lo que den.

El pago se hara una cuarta parte al contado y el resto a 6, 9 y 12 meses de plazo con pagare hipotecario.

5 o/o al firmar el boleto a cuenta del precio y en caso de no escriturar dentro de los 30 dias de la venta perdera el comprador dicho
